

Trial Report - Response

Madhya Pradesh Women Poultry Producers Company Pvt Ltd

A-101, Alkapuri, Near Shakti Nagar, Bhopal, Madhya Pradesh 462024

Trial was conducted at Madhya Pradesh Women's Poultry Producer Company Limited, Bhopal from December 2016 – January 2017.

- The trial was conducted at 6 broiler farms on 6000 birds i.e. 1000 birds on each farm.
- Farms A, B and C were given control diet consisting of Pre-starter, Starter and Finisher ration without addition of Response.
- Farms of D, E, F were given diet containing Response at 250g/MT in Pre-starter, Starter and Finisher ration.

The farm wise data pertaining to Mortality percentage, FCR and Average body weight is given below.

Group	Name of Owner	Birds in Days	Group	Mortality %	FCR	Avg Body Weight (kg)
A	Parvati Bai	32 days	Control	1.6	1.91	1.36
B	Sunita Bai	32 days	Control	1.76	1.56	1.72
C	Kailash Bai	32 days	Control	1.8	1.57	1.59
D	Mamta Bai	32 days	Response	1.2	1.44	1.75
E	Bhooli Bai	32 days	Response	0.8	1.56	1.56
F	Shaitan Bai	32 days	Response	1.2	1.61	1.61

Trial Report Summary

Groups	Birds in days	Mortality %	FCR	Avg Body weight (kg)
Control	32 days	1.72	1.68	1.56
Response	32 days	1.06	1.53	1.64

Conclusion:

From above trial it can be concluded that feeding Response in Pre-starter, Starter and Finisher ration gives, superior FCR, better weight gain and reduced mortality percentage.
